

Environmental Policy statement

This is the Environmental Policy Statement of:

Hazrem Environmental Ltd,

Chambers House,

Blackwood Road,

Blackwood

NP12 2XB

Our statement of general policy is:

Hazrem Environmental Ltd operate within the environmental sector offering hazardous waste disposal services. We will give priority to those suppliers that provide the best practical environmental option, in terms of both cost and impact. We will always ask our customers what their priority is in terms of cost or limiting their impact on the environment (and provide them with the best environmental option or most cost effective disposal / recycling route, dependant on their objectives). To achieve and maintain the required level of assurance the Managing Director retains responsibility for the Environmental Management System. The objectives of the Environmental Management System are:

- To maintain an effective Environmental Management System complying with International Standard ISO14001.
- Only use those contractors that are licensed to carry out specific activities.
- Ensure that we, and the activities we carry out on behalf of our customers; comply with applicable laws and regulations, with respect to the various environmental aspects that have been identified.
- Reduce, re-use and recycle waste that we have direct control over i.e. within the office environment.
- Communicate these objectives and provide adequate training to all new / existing employees, thereby ensuring they have the skills and knowledge to understand the different environmental aspects.
- To ensure that the Environmental Management System is documented, implemented, maintained and that all environmental objectives and targets are regularly reviewed. (cont'd overleaf)

- To ensure that this policy and the scope of the Environmental Management System is freely available to the public and any other interested parties.
- Ensure that all quotations relating to waste disposal and recycling are filtered through a central process, to confirm that the best environmental options are offered to the customer.
- Ensure that hazardous or dangerous substances are transported, stored, handled and used correctly to prevent pollution and ill affects, on both the environment and persons involved.

This policy statement should be reviewed and where applicable up dated annually. The successful implementation of the above objectives is the responsibility of the Managing Director.

P. Goddard - Managing Director July 2010
